Bibliography Requirements

The purpose of the agricultural issues contest is to present a current issue to a public audience; therefore, professional ethics and standards are to be considered. Ignoring truthful information, using unreliable sources and plagiarism are violation examples which could result in disqualification by the dispute committee.

A bibliography includes a complete list of all resources and references cited which may include personal interviews and any other supporting material. The bibliography must conform to the most current edition of the American Psychological Association (APA) Publication Manual.

If deductions for non-compliance with the bibliography requirements are warranted, the contest chair will have the judges confer when all presentations have finished. During this time, judges may only discuss the quality of the bibliography provided and must come to an agreement on the completeness and quality of the provided bibliography. The following guidance should be followed for bibliography point deductions. For formatting examples, judges should refer to Reference List Formatting & Examples resource.

BIBLIOGRAPHY	POINT DEDUCTION
Bibliography is present and includes a complete list of sources and is formatted following the most current edition of the American Psychological Association (APA) Publication Manual.	No deduction
Bibliography is present and complete but formatting is somewhat inconsistent with the most current edition of the American Psychological Association (APA) Publication Manual.	-1 point
Bibliography is present but the list is incomplete and/or formatting is inconsistent with the most current edition of the American Psychological Association (APA) Publication Manual.	-3 points
Bibliography is not present.	-5 points

Note: State winning portfolios that advance to nationals must contain in-text citations throughout the summary in addition to the complete bibliography. While in-text citations are not required for district, regional, or state contests, it is recommended that in-text citations are included when creating the portfolio.

Statement of Authenticity

All portfolio submissions must include a signed copy of the Michigan FFA Statement of Authenticity Form verifying that the portfolio and presentation result from the students' original work. The Statement of Authenticity Form can be found on the Michigan FFA website at: https://michiganffa.org/wp-content/uploads/2023/09/Statement-of-Authenticity-Form_Fillable.pdf

For district, regional, and state contests, the Statement of Authenticity Form should be included as the first page of the portfolio.

If the signed Statement of Authenticity Form is not included, a deduction of 5 points will be determined by the contest chair and enforced equally by all judges.

Forum Expectations

Prior to regional contests, students shall add two high-quality local forum documentations on the certification form.

Prior to the state level, students shall add documentation on the certification form of a minimum of three additional high quality local forums. If a team does not have a total of five high-quality forums at the state level, they cannot be the state winner.

To receive full points at the national level, teams must have documentation of a minimum of five high-quality local forums prior to the state contest.

A team may submit up to two live virtual forums as part of their five community forums. Documentation will remain the same for the forums. If a team were to utilize virtual forums, they must adhere to the existing forum rules for documentation as well as the following: a) clearly identify a section in the portfolio for virtual forums conducted; b) the virtual forum is mentioned in the independent verification, and c) virtual forums must include a live interactive audience where live participation is included.

Multiple organizations attending the same forum will count as one forum.

Portfolio judges may take into consideration the quality and quantity of presentations made to audiences outside of the school. No points will be awarded for presenting to other classes or teachers at the school or neighboring schools. In addition, no points will be awarded for forums presented as any part of a local or state FFA competition.

High-quality forums are those presentations made to community groups that would have an interest in the issue. High-quality forums can also be with smaller numbers of individuals who hold elected, appointed or some other official position that will be making decisions on the issue.

Examples of low-quality forums would be dropping in at a local business and giving a presentation to the workers or going to the home of a student to make a presentation to their family. Low-quality forums will receive zero or minimal points.
